

CLA | TRANSFER STUDENTS | CHEMISTRY PLACEMENT

Many students need to complete Chemistry for their intended program.

CHEM 1061/1065 Chemical Principles I is the beginning of the Chemistry sequence. To determine if you are ready for CHEM 1061/1065, you must take the Math Placement Exam. A minimum placement in Math 1151, Precalculus II, is required to be eligible to take CHEM 1061/1065.

If you are still unsure if you need to take a placement exam, please reach out to the CLA Transfer Team at clatrans@umn.edu.

If you are considering a transfer to College of Science & Engineering, College of Education & Human Development, College of Biological Sciences, or College of Food, Agriculture and Natural Resources Sciences, you **MUST** take the Math Placement Exam to determine eligibility for chemistry courses.

Visit the College of Liberal Arts section of placement.umn.edu to read more about placement testing.

MAJORS THAT REQUIRE CHEMISTRY

- Anthropology B.S.
- Biology, Society, & Environment
- Chemistry
- Earth Sciences
- Environmental Geosciences
- Human Physiology
- Physics
- Pre-health programs (Nursing, MD, PT, PA, Pharmacy, etc)
